WORK EXPERIENCE

● FullStack Developer

QUANTUM CUBE

Dec 2020 - Present

i was building school management software to increase productivity and automate regular tasks with accuracy for universities and secondary schools. This tools where designed to manage processes which where essential to this businesses .

An example is PlotSchool ,PlotSchool is a SaaS application designed to help secondary schools manage there staff and student and well as compute there student results on a termly bases , We also provided other features like sms, online result etc

● Web Developer

ITECH

March 2019 - OCT 2019

I was a trainer in a code bootcamp and we trained people on how to build application with Node Js ,React ,Sql and Php .

We would also build small scale web applications and websites for the clients .

Most Of the time i worked remotely , especially when i was building applications for clients. it was a very valuable experience because I also built application for the company
